

I live in Arkansas and my sister lives in Texas. Driving to Texas and dealing with the traffic can be dreadful. By listening to the XM radio I get the best route to take to avoid the traffic that can sit for hours. Please do not take my traffic report away from the XM radio!!! I do know which stations to listen to get the updated traffic report since I don't live in that area. I need the traffic report on XM radio when traveling. XM makes it easy to switch to the stations on which area I'm traveling in. I oppose HR 4026.
